## **USA Technologies' Information To Be Available Through S&P Market Access Program**

MALVERN, Pa.--(BUSINESS WIRE)---USA Technologies, Inc. (OTCBB: USAT) announced today that its [company information](#) will be made available via Standard & Poor's Market Access Program, an information distribution service that enables subscribing publicly traded companies to have their company information disseminated to users of Standard & Poor's Advisor Insight. The company information to be made available through this program includes share price, volume, dividends, shares outstanding, company financial position, and earnings. Standard & Poor's Advisor Insight is an Internet-based research engine used by more than 100,000 investment advisors. A public version of the site is available at [www.advisorinsight.com](http://www.advisorinsight.com). USA Technologies information can be found [here](#).

In addition, information about companies in Standard & Poor's Market Access Program will be available via S&P's Stock Guide database, which is distributed electronically to virtually all major quote vendors. As part of the program, a full description of USA Technologies will also be published in the Daily News section of Standard Corporation Records, a recognized securities manual for secondary trading in approximately 37 states under the Blue Sky Laws.

### **Statement under the Private Securities Litigation Reform Act:**

With the exception of the historical information contained in this release, the matters described herein contain forward-looking statements that involve risk and uncertainties that may individually or mutually impact the matters herein described, including but not limited to product acceptance, the ability to continually obtain increased orders of its products, the ability to meet installation goals, economic, competitive, governmental impacts, whether its pending patents will be granted or defensible; validity of intellectual property and patents of USA, the ability of USA to license its patents, the ability of USA to commercialize its developmental products, technological and/or other factors, which could cause actual results or revenues to differ materially from those contemplated by these statements.
