Forward Looking Statements

Forward-looking Statements:

All statements other than statements of historical fact included in this release, including without limitation Cantaloupe's future prospects and performance, the business strategy and the plans and objectives of Cantaloupe's management for future operations, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this release, words such as "estimate," "could," "should," "would," "likely," "may," "will," "plan," "intend," "believes," "expects," "anticipates," "projected," and variations of these terms and similar expressions. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. Actual results or business conditions may differ materially from those projected or suggested in forward-looking statements as a result of various factors including, but not limited to, those described below and in Part I, Item 1A, "Risk Factors" of our most recent Annual Report.

Actual results could differ materially from those contemplated by the forward-looking statements as a result of certain factors, including but not limited to general economic, market or business conditions unrelated to our operating performance, including inflation, elevated interest rates, supply chain disruptions, financial institution disruptions, geopolitical conflicts, public health emergencies and declines in consumer confidence and discretionary spending; our ability to compete with our competitors and increase market share; failure to comply with the financial covenants in our debt facilities; our ability to maintain compliance with rules and regulations applicable to our business operations and industry; disruptions in other card payment processors, software and manufacturing partners upon whom we rely; whether our customers continue to utilize our transaction processing and related services, as our customer agreements are generally cancellable by the customer with thirty days' notice; our ability to acquire and develop relevant technology offerings for current, new and potential customers and partners; risks and uncertainties associated with our expansion into and our operations in Europe, Mexico and other foreign markets, including general economic conditions, policy changes affecting international trade, imposition of tariffs by the new presidential administration, or changes and adjustments to existing tariffs, political instability, inflation rates, recessions, sanctions, foreign currency exchange rates and controls, foreign investment and repatriation restrictions, legal and regulatory constraints, civil unrest, armed conflict, war and other economic and political factors; our ability to satisfy our trade obligations included in accounts payable and accrued expenses; our ability to attract, develop and retain key personnel, or our loss of the services of our key executives; the incurrence by us of any unanticipated or unusual non-operating expenses, which may require us to divert our cash resources from achieving our business plan; our ability to predict or estimate our future quarterly or annual revenue and expenses given the developing and unpredictable market for our products; our ability to successfully integrate acquired companies into our current products and services structure; our ability to add new customers and retain key existing customers from whom a significant portion of our revenue is derived; the ability of a key customer to reduce or delay purchasing products from us; our ability to obtain widespread commercial acceptance of our products and service offerings; whether any patents issued to us will provide any competitive advantages or adequate protection for our products, or would be challenged, invalidated or circumvented by others; the ability of our products and services to avoid disruptions to our systems or unauthorized hacking or credit card fraud; risks associated with cyber-attacks and data breaches; and our ability to maintain effective internal controls and to timely file periodic and current reports with the Securities and Exchange Commission ("SEC").

Readers are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statement made by us in this release speaks only as of the date of this release. Unless required by law, Cantaloupe does not undertake to release publicly any revisions to these forward-looking statements to reflect future events or circumstances or to reflect the occurrence of unanticipated events. If Cantaloupe updates one or more forward-looking statements, no inference should be drawn that Cantaloupe will make additional updates with respect to those or other forward-looking statements.

Non-GAAP Measures

Discussion of Non-GAAP Financial Measures:

This press release contains discussion of Adjusted Gross Profit, Adjusted Gross Margin and Adjusted EBITDA, which are non-GAAP financial measures that are not required or defined under U.S. GAAP (Generally Accepted Accounting Principles). Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. Reconciliations between non-GAAP financial measures and the most comparable GAAP financial measures are set forth below. However, we do not provide forward-looking guidance for certain financial measures on a GAAP basis because we are unable to predict certain items contained in the U.S. measures without unreasonable efforts. These items may include acquisition and integration related costs, severance expenses, litigation charges or settlements, and certain other unusual adjustments.

We use Adjusted Gross Profit, Adjusted Gross Margin and Adjusted EBITDA for financial and operational decision-making purposes and prospects evaluate period-to-period comparisons. We believe that these non-GAAP financial measure provide useful information about our operating results, enhance the overall understanding of past financial performance and future prospects and allows for greater transparency with respect to metrics used by our management in its financial and operational decision making. The presentation of these financial measure is not intended to be considered in isolation or as a substitute for the financial measures prepared and presented in accordance with GAAP, including our net income or net cash provided in operating activities. Management recognizes that non-GAAP financial measures have limitations in that they do not reflect all of the items associated with our net income as determined in accordance with GAAP, and are not a substitute for or a measure of our profitability or net earnings. Adjusted Gross Profit, Adjusted Gross Margin and Adjusted EBITDA are presented because we believe they are useful to investors as measures of comparative operating performance. Additionally, we utilize Adjusted EBITDA as a metric in our executive officer and management incentive compensation plans.

We define Adjusted Gross Profit as revenue less cost of sales, exclusive of depreciation of internally-developed software and amortization of intangible assets related to technologies obtained through acquisitions. We believe this non-GAAP measure is useful to view the resulting figures excluding the aforementioned non-cash charges because the amount of such expenses in any specific period may not directly correlate to the underlying performance of our business operations and such amounts vary substantially from company to company depending on their financing and capital structures and the method by which their assets were acquired. We define Adjusted Gross Margin as Adjusted Gross Profit divided by revenue.

We define Adjusted EBITDA as U.S. GAAP net income (loss) before (i) interest income from cash and leases, (ii) interest expense from debt and tax liabilities, (iii) income tax provision, (iv) depreciation, (v) amortization, (vi) stock-based compensation expense, and (vii) certain other significant infrequent or unusual losses and gains that are not indicative of our core operations such as integration and acquisition expenses and auditor transition cost and remediation expense.
